**Press Release
Morgan Hill, CA**

**For immediate release
January 14, 2010**

Marki Microwave, Inc. announces the discontinuation of the “C” package above 20 GHz.

Effective immediately, any Marki Microwave product that operates at frequencies above 20 GHz will NO LONGER be available in our “C” package. Products currently affected by this change include the M8-0226 and M4-0226 series mixers. Our standard [“A” package](#) is the recommended alternative.

Marki Microwave, Inc. is the premier manufacturer of microwave mixers worldwide, offering the industry's most comprehensive line of signal processing products up to 65 GHz. Marki's extensive product line includes mixers, doublers, multipliers, amplifiers, bias tees, filters, directional couplers, quadrature hybrids and power dividers. Marki Microwave employs precision assembly using both solder and wire bonding techniques. Test facilities include state-of-the-art equipment for measurement from DC to 65 GHz. All assembly, inspection, and testing is done onsite to assure uniformity and repeatability of performance. Marki Microwave is certified to ISO 9001:2000.
