

Production Supervisor – Team Lead

The main responsibility of the Production Supervisor – Team Lead is to ensure productivity, quality, and process standards conformity on their manufacturing assembly team. Typical responsibilities include:

- Ensure production schedules are being met and resolve any production schedule issues.
- Provide training to team members including retraining to prevent test failures problems
- Resolve day-to-day production and team issues
- Track and report on production, ship schedules, Work-in-Process, labor and product movement.
- Assist in facilities' maintenance to help ensure upkeep of capital equipment for production and R&D
- Provide meaningful and timely feedback on employee's performance including completing and conducting annual performance appraisals and developing training plans.
- Other Duties as assigned

Qualifications:

The successful candidate will combine the following accomplishments/traits:

- Job experience in the RF or electronics industry required
- Associates degree in Engineering or Technology preferred
- Excellent English communication skills, both written and oral;
- Exceptional interpersonal and relational skills
- Ability to organize, prioritize, and multi-task in a fast-paced environment
- This position must meet Export Control compliance requirements, therefore a "US Person" as defined by 22 C.F.R. & 120.15 is required.
- This position must comply with the separate and distinct verification procedures under the ITAR requiring the presentation of documents establishing citizenship or immigration status necessary to ensure compliance with the ITAR

About Marki Microwave

Shattering Performance Barriers Since 1991.

At Marki Microwave our goal is to invent technologies to empower the RF and microwave industry to *design faster, simplify production, eliminate complexity, and shatter performance barriers.*

We achieve this goal through intensive research, product development, advanced and carefully controlled production, and world class customer support. We have a multi-decade legacy designing high performance microwave electronic components, demonstrating technical leadership through collaboration with thousands of customers spanning markets including commercial wireless, military and test and measurement. Our extensive knowledge base is enhanced with state-of-the art CAD, and in-house production, test and measurement capabilities through 110 GHz.

Marki Microwave is a privately-owned company based in Morgan Hill, California, 30 minutes from downtown San Jose in southern Silicon Valley. We offer a full benefits package including holiday pay, PTO, medical/dental/vision insurance, and a 401(k)/profit sharing plan.

Marki Microwave is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex including sexual orientation, gender identity and pregnancy, national origin, disability, or protected veteran status, or any other characteristic protected by applicable federal, state, or local law. This position must meet Export control compliance requirements; therefore a "US Person" as defined by 22 D.F.R & 120.15 is required.
