About Marki Microwave

Shattering Performance Barriers Since 1991.

At Marki Microwave our goal is to invent technologies to empower the RF and microwave industry to *design faster, simplify production, eliminate complexity, and shatter performance barriers.*

We achieve this goal through intensive research, product development, advanced and carefully controlled production, and world class customer support. We have a multi-decade legacy designing high performance microwave electronic components, demonstrating technical leadership through collaboration with thousands of customers spanning markets including commercial wireless, military and test and measurement. Our extensive knowledge base is enhanced with state-of-the art CAD, and in-house production, test and measurement capabilities through 110 GHz.

Marki Microwave is a privately-owned company based in Morgan Hill, California, 30 minutes from downtown San Jose in southern Silicon Valley. We offer a full benefits package including holiday pay, PTO, medical/dental/vision insurance, and a 401(k)/profit sharing plan.

Marki Microwave is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex including sexual orientation, gender identity and pregnancy, national origin, disability, or protected veteran status, or any other characteristic protected by applicable federal, state, or local law. This position must meet Export control compliance requirements; therefore a "US Person" as defined by 22 D.F.R & 120.15 is required.
