END OF PRODUCT LIFE ANNOUNCEMENT

Marki Microwave is announcing the end of product life for all legacy surface-mount bias tees. Pin-compatible replacement products have been designed with enhancements for reliability and ease-of-use, and are available now for purchase. A change report and qualification report are available upon request.

Please see the affected part numbers and the recommended replacements on the attached Appendix A.

The transition to the new products is being expedited due to supply chain issues with the substrate vendor of the legacy bias tees. Marki will continue to accept orders through April 15, 2022 for the EOL parts, after which only orders for the replacement parts will be accepted. For any questions regarding the above information, or how to acquire samples of recommended product replacements, please contact sales@markimicrowave.com.

Please route this announcement to any and all concerned personnel within your organization to assure that requests for quotations and orders are received in a timely fashion.

Best regards,

Elizabeth LaGreca
Director, Sales Operations
Marki Microwave, Inc.
