

Reliability Technician

The main responsibility of the reliability technician is to support the QA manager in the qualification of electronic components under environmental stress.

Responsibilities include:

- Perform reliability testing of components (temperature cycling, burn in, etc)
- Perform basic low frequency electrical tests
- Collect and record required reliability inspection reports and prepare Hi-rel data pack for delivery
- Prepare for and support Customer Source Inspections as required
- Ship/receive test components from external vendors performing services
- Follow a test plan traveler and ensure compliance
- Develop test plans and travelers with guidance from engineering and QA
- Other Duties as assigned

Qualifications:

- Excellent English communication skills, both written and oral
- Working knowledge of Microsoft Office (Excel, Word, PowerPoint)
- Exceptional interpersonal and relational skills
- Strong attention to detail
- Job experience in the RF or electronics industry preferred
- Ability to organize, prioritize, and multi-task in a fast-paced environment
- This position must meet Export Control compliance requirements, therefore a "US Person" as defined by 22 C.F.R. & 120.15 is required
- 50-70k per year based on qualifications and experience

About Marki Microwave

Shattering Performance Barriers Since 1991.

At Marki Microwave our goal is to invent technologies to empower the RF and microwave industry to *design faster, simplify production, eliminate complexity, and shatter performance barriers.*

We achieve this goal through intensive research, product development, advanced and carefully controlled production, and world class customer support. We have a multi-decade legacy designing high performance microwave electronic components, demonstrating technical leadership through collaboration with thousands of customers spanning markets including commercial wireless, military and test and measurement. Our extensive knowledge base is enhanced with state-of-the art CAD, and in-house production, test and measurement capabilities through 110 GHz.

Marki Microwave is a woman-owned private company based in Morgan Hill, California, 30 minutes from downtown San Jose in southern Silicon Valley. We offer a full benefits package including holiday pay, PTO, medical/dental/vision insurance, and a 401(k)/profit sharing plan.

Marki Microwave is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex including sexual orientation, gender identity and pregnancy, national origin, disability, or protected veteran status, or any other characteristic protected by applicable federal, state, or local law. This position must meet Export control compliance requirements; therefore a "US Person" as defined by 22 D.F.R & 120.15 is required. This position must comply with the separate and distinct verification procedures under the ITAR requiring the presentation of documents establishing citizenship.
